About Me:

I am Vikash Kumar (Founder of Elite Interior), a multi-skilled professional with a strong passion for technology, gadgets, digital systems, and problem-solving since childhood. From mobile devices to software, marketing, and management, I have built my expertise through hands-on practice and real-world experience rather than theory alone.

I am a self-dependent, business-minded, and result-oriented professional who adapts quickly to any situation and works effectively with teams through strong coordination and communication.
